How will the LEA determine the most important educational needs as a result of COVID-19?

Through collaboration among school administrators, specialty area directors, and teachers about the areas that impact instruction, basic needs, and social emotional learning, the greatest needs will be determined and addressed. Professional development and cleaning supplies assist our staff in modeling safe, effective practices for students and their families. A dedicated COVID-19 nurse will be hired to support health protocols. Contracted services to ensure high school seniors had a safe distance graduation ceremony. Contracted tutors/substitutes to support elearning.

How does the LEA intend to assess and address student learning gaps resulting from the disruption in educational services?

The district will facilitate discussions with regular and special education teachers regarding grade level teams and vertical teams to identify learning targets that could not be addressed and skills that were not mastered by students. This information will be used to determine best instructional alignment for 2020-2021. Star Reading and Math assessments will be used to determine the best instructional alignment for 2020-2021 with results determining Tier II & III intervention placements.
